
PRESS RELEASE**reed expands smart water management solutions to Ottawa, ON and Montreal, QC markets,
partners with Controls Depot**

Toronto, Mar. 05, 2020 - reed is pleased to announce the new partnership with Controls Depot to carry the reed smart water management solutions. The benefits of this new partnership for the Ottawa and Quebec markets include simple easy access to reed products and expert support on plumbing system systems design for mechanical consultants. "This is a win-win for Controls Depot and engineering consultants and developers. Our clients will receive a high-quality service with a complete smart water management solution" said Avi Moscovich, CMO at reed.

"The Controls Depot team is excited about adding the reed product offering to our bundle. In this challenging environment, it is important to provide our clients with products that are competitive and innovative. We look forward to mutual success," said Pierre-Paul Bernard, Regional Sales Manager for Controls Depot.
